Gobierno coloca 6 mil mdd en bonos

México colocó 6 mil millones de dólares en bonos a cinco, 12 y 31 años, en una operación que tuvo una demanda de 28,500 millones de dólares, la mayor en la historia del país, informó la Secretaría de Hacienda. La emisión alcanzó una demanda equivalente a 4.75 veces el monto total de la transacción y contó con la participación de más de 420 inversionistas institucionales de todo el mundo. Muy buen resultado si se toma en cuenta la reciente degradación de las calificadoras al soberano.
